LOW-VOLUME ROADS ENGINEERING Best Management Practices

Compiled by Gordon Keller
Updated October, 2015

Best Management Practices- General

Environmental Protection Agency. Draft 2001. National Management Measures to Control Non-point Source Pollution from Forestry. EPA Contract No. 68-C7-0014, Work Assignment #2-20. Prepared for Office of Water, U.S. Environmental Protection Agency by Tetra Tech, Fairfax, Virginia. (A comprehensive guide to measures for reducing water pollution from roads and logging activities.)

Michigan Department of Natural Resources. 1994. Water Quality Management Practices on Forest Lands.

Montana State University. 1991. Montana Forestry Best Management Practices. Montana State University Extension Service. July (BMPs also produced by Montana Department of State Lands in 1992.)

Ontario Ministry of Natural Resources. 1988. Environmental Guidelines for Access Roads and Water Crossings. Queen's Printer for Ontario, Canada

U.S. Department of Agriculture, Forest Service. 2000. Water Quality Management for National Forest System Lands in California-Best Management Practices. Vallejo, CA: Pacific Southwest Region, U.S. Department of Agriculture, Forest Service. 186 p.

U.S. Department of Agriculture, Forest Service. Draft. 2001. Best Management Practices for Forest Roads: A performance-based framework. Washington, DC: A cooperative effort between the U.S. Department of Agriculture, Forest Service, and U.S. Environmental Protection Agency. 24 p.

*U.S. Department of Agriculture, Forest Service. 2012. National Best Management Practices for water quality management on National Forest System lands, Volume 1-National core BMP technical guide. FS-990a. Washington, DC. April. Available at:

http://www.fs.fed.us/biology/resources/pubs/watershed/FS_National_Core_BMPs_April2012.pdf

* Wisconsin Department of Natural Resources. 1995. Wisconsin's Forestry Best Management Practices for Water Quality-Field Manual for Loggers, Landowners and Land Managers. Publication No. FR093. March. Madison, WI. 76 p.

Note: If you just want to choose one or two () or a few (*) publications from any subject area list, these are what I consider the most useful documents or my personal favorites!**
Gordon
